DEVIATION INCIDENT REPORT

Deviation ID: DEV-2026-BIO-205

Date of Occurrence: 2026-05-18

Site: Singapore Biologics Tech Park (Site SGP-02)

Department: Upstream Bioprocess Operations

Source / Detection: SCADA Online Process Analytical Technology (PAT)

Incident Title: Bioreactor pH Sensor Online Drift During Fed-Batch Fermentation

Related Product: Recombinant Factor VIII Bulk Solution

Batch Number: RF8-9901

Event Description:

During Day 7 of fed-batch cultivation in 2000L Bioreactor BR-201, inline pH probe SE-201 drifted to pH 6.72 against a valid

Immediate Containment Action:

Switched feedback loop control to redundant inline probe SE-202 which was within calibration. Broth sampling taken for exp
